

## Dead Again

### Exhumed

Cardiopulmonary activity resumes, resuscitate  
The first breath of a new life I've doomed, reactivate  
Air rushes back into your lungs, reventilate  
Your new death has just begun, I will not abate...

'Til you're dead again  
When beyond begins  
You will descend  
This is the end again  
Dead again...

Reborn in pain and in pain again you will die, excruciate  
Excised, anatomized and a scalpel's breadth from your demise, y  
our fetid fate  
Your body is broken, your limbs all mangled and wrecked, detrun  
cate  
Your prolapsed intestine now wrapped tight around your neck, st  
rangulate...

'Til you're dead again  
When beyond begins  
You will descend  
This is the end again  
Dead again...

Brought back just to die one final time, back through death's g  
ate  
Your life, your death, your body and soul, they are mine, to mu  
tilate  
Grotesque disfigurement your only funerary rite, organs liquida  
te  
Massive hemorrhaging until darkness covers your sight, life ter  
minates...

'Til you're dead again  
When beyond begins  
You will descend  
This is the end again  
Dead again...
