

Lysergicide

Exhumed

Schizophrenic visions tingle the spine
Agoraphobic bias corrupts the mind
Blotter-paper horrors, yet unperceived
Perforated parchment, an escape ill-conceived

Intoxicate - it courses through your veins
Coagulate - viscous slop in your brain
Nullify - succumb to the void
Horrified - your mind destroyed

Brain entropy - lysergicide
You cease to be - lysergicide
Brain entropy - lysergicide
You cease to be - lysergicide

Salivations pool from your maw, agog
Hallucinating parasites emerge from the fog
Reality ablated as senses decay
Ego sublimated, neurotic castaway

Inebriate - liquefying your brain
Flagellate - self-inflicted pain
Clarify - schizoid internecine
Lysergicide - revelation sanguine

Brain entropy - lysergicide
You cease to be - lysergicide
Brain entropy - lysergicide
You cease to be - lysergicide

Intoxicate - it courses through your veins
Coagulate - viscous slop in your brain
Nullify - succumb to the void
Horrified - your mind destroyed

Brain entropy - lysergicide
You cease to be - lysergicide
Brain entropy - lysergicide
You cease to be - lysergicide
