

# Rabid

Exhumed

Infection spreads like wildfire  
Mouths begin to form  
Hydrophobic epidemic  
Spurs a lust for blood and bone  
Feral instincts awakened  
Devolved to savagery  
Preying upon each other  
In deranged ecstasy

Salivating thirst - drink your blood  
Your arteries they'll burst - rabid  
A hunger slaked by flesh - eat your skin  
Thralls enslaved by death - rabid

Death can come in many forms  
Closing in around you fast  
Scream in horror as your neighbors  
Are the ones who will make you breathe your last  
Primitive urges  
You once thought had been tamed  
Now rise to the surface  
To hack, rend and maim

Salivating thirst - drink your blood  
Your arteries they'll burst - rabid  
A hunger slaked by flesh - eat your skin  
Thralls enslaved by death - rabid
