

Rancid Fermenting Stench

Exhumed

Bursting chyme
Empyema drained from your chest
Desquamation
Quivering boils begin to fester

Putrid offal
Enccephalitis clogs your brain
Shredded chunks
Clumps of visceral ulcers

Torn, shredded masses of blistering scabs
Contorting and writhing in pain
Deterioration of your bowels
Rancid fermenting stench

Emulsifying carnage left to reek and rot
Intoxicating foul aroma
Cadaveric splatter decomposes on the floor
Body smashed and crushed

Torn, shredded masses of blistering scabs
Contorting and writhing in pain
Deterioration of your bowels
Rancid fermenting stench
