At night, at night
Not during the day, but you at night
At night, at night
Not during the bright day
At night, on this night, in this dark room
Come at night not during the day

In our busy schedules
We have no time to meet
There's so many people outside
The sunlight is harsh
Rather than liking it, it's just blinding

I don't like feeling that
I only want to be blinded by you at night
You say you like my skin cause it's white
So the daytime is dangerous, no shade to hide under

At night, at night
Not during the day, but you at night
At night, at night
Not during the day, but you at night
At night, at night, us two, like this
Oh get it on get it on get it on babe
Come at night not during the day

Come again tomorrow
The darker the night, the better
Because I might get sick
After I eat if you're not here
A guy who pats me as he tells me good night

I like that kinda guy

Meeting during the day for a date
I like that too but
Right now, I wanna lay down and stay up all night
As full as our hearts
As we look at the moon

Your body heat
Covers my head, shoulders, knees and toes
Even my heart gets warm
Come here my baby baby
Butterflies in my mind

At night, at night
Not during the day, but you at night
At night, at night
Not during the day, but you at night
At night, at night, us two, like this
Oh get it on get it on get it on babe
Come at night not during the day

I wish you were here
At night more than the day
So I can look pretty
Under the soft lights
Come here my baby baby no
So no one will interfere
Come at night not during the day

At night, at night
Not during the day, but you at night
At night, at night
Not during the day, but you at night
At night, at night, us two, like this
Oh get it on get it on get it on babe
Come at night not during the day

At night, at night
Not during the day, but you at night
At night, at night
Not during the bright day
At night, on this night, in this dark room
Come at night not during the day
