Exilia

It's freezing
Broken
We are all bleeding
There's no compassion
Children
Like soldiers
Fought for freedom
Are we mistaken?
The darkness of the world
It's called war
You've given us nothing
You've given us nothing at all
I got my back against the wall

It's wrecked
Crosses
They were bleeding
There's no compassion
Children have fallen
Fought for freedom
We have been mistaken
The darkness of the world
It's not my war
You've given us nothing
You've given us nothing at all
I got my back against the wall
