

# Metal Is King

Exmortus

Immortal alloy forged  
bringer of endless war  
tempered steel you will feel  
when the reaper makes his deal

Bow to your master for Metal is king  
Unto the naysayers death I shall bring

Merciless conquering  
victory to the Metal kings  
glorybound, strike them down  
crack the sky and burn the ground

Bow to your master for Metal is king  
Unto the naysayers death I shall bring

Forget all you heard  
there's no power in the word  
for when the reaper makes his deal  
trust in your steel

Swear by the hilt  
allegiance thence is built  
for when the reaper makes his deal  
trust in your steel

when the reaper makes his deal  
trust in your steel

Metal is king, all hail the king  
Metal is king, all hail the king  
Metal is king!

Immortal alloy forged

Bringer of endless war  
tempered steel you will feel

When the reaper makes his deal

Bow to your master for Metal is king  
Unto the naysayers death I shall bring
