

Strength and Honor

Exmortus

Prepare for battle, enter the ring
Embrace the metal
And the madness it shall bring
It's time to suffer, endure the pain
Are you not entertained?

Unleash Hell

We are immortal and soon you'll know
Feel the power of the blow
It's time to suffer
Endure the pain
We'll die with honor
Only cowards live in shame

Now the time has come, dark destiny
All our deeds echo on in eternity
Defy the odds, appease the gods
Go forth with strength and honor

Strength and honor, fight!

It's time to suffer
Endure the pain
We'll die with honor
Only cowards
Live in shame

Now the time has come, dark destiny
All our deeds echo on in eternity
Defy the odds, appease the gods
Go forth with strength and honor
