The distance between our gazes (Yeah)
A subtle game of tug-and-war
Without a chance to catch my breath (Uh uh)
While I was caught up in my emotions
You came to mind (Woo)

And came to me like magic,
Putting me under a spell (That's right)
Everything looks like you

(Hello) Deep eyes I could fall right into
(Hello) Your hair blowing in the soft scents
(Hello) My heart already knows and jumps right in,
Without a chance for me to slow it down
(Hello) I keep calling out your name
(Hello) You come to mind no matter where I go
My entire world is becoming dyed by you

You shine like a miracle,
You're just so beautiful
I guess I must've wandered so long
Just so I could meet you in the end
In this moment, I'm gonna cherish you
I swim in your eyes
In this moment, I'm gonna cherish you
I've completely fallen for you

Say anything you want (Uh uh)
I was just about to do it
You're a small bubble (It's okay)
I'm so careful about everything
The more I see of your bold side (Woo)
The more it drives me crazy
The final piece (Yeah)
Of the puzzle I've been looking for

(I know) I'm not your type
(I know) But change that now
(I know) Confidence that'll make your heart pound
You give me courage
(I know) Your feelings have taken a step towards me
(I know) What'll happen if I jump in first?
I fall completely into you once again

You shine like a miracle,
You're just so beautiful
I guess I must've wandered so long
Just so I could meet you in the end
In this moment, I'm gonna cherish you
I swim in your eyes
In this moment, I'm gonna cherish you
My whole world is filled with only you

I dream a dream called you each night,
And it keeps coming true
All my roads lead to you,
The light that links us together
Once more, I'm gonna cherish you
Everything in the world is brand new
Once more, I'm gonna cherish you
I've completely fallen for you

You're my everything
I'd give my all to protect you
I'll run to you
So you don't have a hard time coming to me
I'll make your every day
Nothing but a happy dream
The entire world will be dyed in us

When I open my closed eyes
And I'm reminded that you're there,
I feel like I'll fly into the sky
And burst like fireworks
In this moment, I'm gonna cherish you
I swim in your eyes
In this moment, I'm gonna cherish you
My whole world is filled with only you

I dream a dream called you each night,
And it keeps coming true
All my roads lead to you,

Once more, I'm gonna cherish you
