Slipping through my fingers
Love is shaped like your tears
Slightly shaking despite hiding my hesitation
Your answer is "no"

We can't go back to the path we've walked

While being huddled up to each other, goodbye

The more I embrace you
Even though we're so in love
We both hurt, hurt each other
But I still wanted to be with you
Sorrowful diamond, diamond crystal
Crystal

Love, this colorless, transparent ocean, oh
Color it as deep as you can, yeah
Don't cry anymore
Or I'll end up repeating it again
"Let's stop..."
None of us said that
I had naturally let go of your hand
Our answer is "no"

Counting down on my fingers (Yeah so much)
The days until I can see you again (By my side)
Although I was dreaming, goodbye

The more I embrace you
Even though we're so in love
We both hurt, hurt each other
But I still wanted to be with you
I want you to stay forever
Sorrowful diamond, diamond crystal

Only time moves on
Never losing its vividness
My heart remains beautiful
Despite shattering into pieces
Not everything turns into memories
It will continue shining brightly until eternity
I will continue loving you
Even if I'm miserable

It would have been okay if I broke
I didn't want us to go separate ways

The more I embrace you
Even though we're so in love
We both hurt, hurt each other
But I still wanted to be with you
Cause I thought we would always be here, together
Sorrowful diamond, diamond crystal
Crystal yeah

My dear diamond, diamond crystal
