The King and Queen

The hard days I've gotten over to become stronger
Until I reach my destination
Tempt this path that's connected to a new day
Don't waver and continue, just go straight

Instead of becoming someone's "Yes man"
I'll open the path myself, building my own world
Getting stronger every time I recover from injuries
Ain't nobody can tell me what to do

Come follow me baby baby
There's nothing to be scared of
Baby baby just do as your heart tells you

In my life I gotta be the King
Yes, I gotta be the King
I won't let anyone get in my way
No matter what happens from here on
Girl you gotta be the Queen
Girl you gotta be the Queen
Just be by my side and laugh
That's enough for me
The King and Queen

You hear the calling?

Once it reverberates in your heart
Throw your hesitation away
We don't need it anymore
We can sway freely to the sound
Here we are all King and Queen
So come on and let's go

Anytime we connect with other people
Our own world extends more
Spread the words and spread the love
If you're satisfied, don't turn around
Just continue believing like this

If you're not here, a King needs a Queen
We become free when we dance
Don't pay attention to anyone
Ain't nobody can tell you what to do

Come follow me baby baby
There's nothing to be scared of
Baby baby just do as your heart tells you

In my life I gotta be the King
Yes, I gotta be the King
I won't let anyone get in my way
No matter what happens from here on
Girl you gotta be the Queen
Girl you gotta be the Queen
Just be by my side and laugh
That's enough for me
The King and Queen

Rise up, rise up, we don't stop
Just keep your faith
We are gonna make it to the top
I only live once, you only live once
Never lie to yourself
You have to protect that pride yeah
Close your eyes and count to five
Once your heart has decided, look over
Wonderful world
Stars shining right now, whose is it?
It is mine, it is mine, it is mine

In my life I gotta be the King
Yes, I gotta be the King
I won't let anyone get in my way
No matter what happens from here on
Girl you gotta be the Queen
Girl you gotta be the Queen
Just be by my side and laugh
That's enough for me
