Hey, it's gettin' chilly outside  
You know after the summertime ends  
And the heat goes away  
There's nothin' better than  
Having you in my arms

I know this feeling.  
The rhythm after summer, here  
Right now, with you laying by my side  
And the wind blowing past  
What else could I need?

This is like a Sunday brunch  
Every morning sharing a kiss  
Oh, this is all reality (all night)  
I don't even care if this is a dream  
Because when I wake up all I'll see is your face

What we have is special, you and me  
Oh, the rhythm in my soul,  
It only responds to you, babe  
Oh, you know I can't control myself  
When the music changes,  
You'll be dyed in the sunset  
The rhythm after, the rhythm after

The rhythm after the summer  
The rhythm after the sun  
The rhythm after the summer  
I run to you  
After completely melting,  
We've become one

I like this feeling  
The rhythm after summer's everywhere  
A new air embraces us  
I'm comfortable, even more thanks to you  
Even more thanks to you

The scent of the wind has changed  
The cooling sunshine is a bit lonely (the sunshine)  
Feel it all  
If you feel the same as I do,  
We must share one soul

What we have is special, you and me  
Oh, the rhythm in my soul,  
It only responds to you, babe  
Oh, you know I can't control myself  
When the music changes,  
You'll be dyed in the sunset  
The rhythm after, the rhythm after

The rhythm after the summer

The rhythm after the sun  
The rhythm after the summer  
I run to you  
After completely melting,  
We've become one

Let me hear your melody,  
So I can feel my heart pound again  
So I can fall in love with you all over again  
When this season comes back around

Our own small show,  
And I dance endlessly  
You're my rhythm  
(My only rhythm is you)  
And you light up my nights  
We want each other,  
Baby, what else do we need?  
(We've become one)

What we have is special, you and me  
Oh, the rhythm in my soul  
(Rhythm after)  
It only responds to you, babe  
You know I can't control myself  
When the music changes, (baby maybe)  
You'll be dyed in the sunset  
(Oh, baby rhythm after)  
The rhythm after  
The rhythm after

The rhythm after the summer  
(Rhythm after)  
The rhythm after the sun  
The rhythm after the summer  
(Rhythm after the summer, yeah)  
I run to you  
(Rhythm after the summer)  
After completely melting  
(Rhythm after the sun)  
We've become one
