Look, it's like magic
The way everyone's drawn to her
It looks planned, the way everyone looks at once
When she flicks her hair back
Everyone is surprised, the truth is
We all feel the same
In that moment we all become rivals as men
Her fatal smile is dangerous
(She's so dangerous)

Oh, my whole body is electrified like "ow"
Oh girl, I can't take my eyes off you
I can feel it from afar

The smile hidden
Behind your bold expression
Seems like it's meant for me
I'm sure, my eyes keep meeting
Your pretty eyes
And they're making me more impatient
(Come on)

Bring me over to you
Just you and me alone
However you like,
Just leave it all to me
I promise I will be the one

Your sweet voice is a pretty melody,
It puts me over the moon
I feel like I've got everything, nobody knows
I fall for you more and more

Is this a dream?
My heart is pounding

Like candy that pops
In your mouth
This electrifying feeling
Spreads through all of my senses
Before this feeling leaves me,
Could you take my hand?

The smell of your shampoo
Brushing past my nose
Makes me stop for a moment
In that moment, the way your fingers
Brush lightly past me
Really drives me crazy

Bring me over to you
Just you and me alone
However you like,
Just leave it all to me

I'll approach you like a man, baby
Forget everything else
Right now, right here
The two of us, just me and you

Bring me over to you
Just you and me alone
(You and me, you and me, yeah)
However you like,
Just leave it all to me
(Leave it all to me)

Baby, let me be the one
Baby, let me be the one
(Baby, let me be the one)
We're facing each other
Surrounded by looks of jealousy
I hope it's not a dream
(Baby, let me)
