Come on girls  
Making me go so crazy  
Ambitions and ulterior motives  
If it's what you desire,  
I'll get stuck in the traffic for you even on my day-offs

Going round and round my territory  
Dancing and singing until late at night  
Hey, that girl, she's such a cutie  
Let's go speak to her  
Even If we speak to her and she ends up ignoring us  
That would actually excite me more

Strong pride? Gotta go  
Stubbornness? No no no  
I don't have any of those things  
The only thing I have is this baseless self-confidence

Tornado spiral  
Let's create one, anytime here we go  
Tornado spiral  
Let's get sucked up by it and travel everywhere

Let's dance all night  
Drink and make some noise, get your swag  
Come on girls, it would be a waste, come here  
Let's go crazy  
Stir it up, create some movement  
Cut the air with your steps and skips  
It all starts now, movement

I have no sense of tact  
And no principles  
This is the kind of tension that I desire  
Always in a good mood  
Instead of being tied by common sense  
Aim for the top, Winner, You

Huge popularity? Gotta go  
Expensive suits? No no no  
I don't have any of those things  
All I have is the knowledge on how to enjoy life

Tornado spiral  
Let's create one, anytime here we go  
Tornado spiral  
Let's get sucked up by it and travel everywhere
