Woo
Woo
Woo
Woo

Going crazy (Go go going crazy)
I hate you

Woo
Upside down
Upside down
Upside down

It pushes up to me like thickening fog
Cutting off my breath, it's killing me
These infected wounds
Are getting deeper, they keep aching
(but it was you)

That nightmarish day comes to mind
I tell myself it won't be like that this time
You're fading away
Don't know what you want

The thick fog clears up and everything's clear
The traces of your lies passing by like a strip of film
I hate you

Woo, going crazy
All that's left for me is your deep scars
And they'll never fade
I'm going crazy

Looking at me like it's nothing
Baby, won't you stop?
There's no hope, making excuses like that
You drive me crazy
The moment I blink I'm cut
By your sharp tongue, just like that
My eyes and ears, hands and feet, so much more
What did I even see and hear?
It's like my body's not even mine, I can't control it, oh

The thick fog clears up and everything's clear
(I let you control)
The traces of your lies passing by like a strip of film
I hate you

Woo, going crazy
All that's left for me is your deep scars
And they'll never fade
I'm going crazy

Going crazy (go go going crazy)

My heart is racing like it's about to burst
I wanna know what's next
An adrenaline rush, pumping through my whole body
Don't know what you do to me, oh

My reasoning only gives me one answer
But my heart isn't sure
Call me crazy, I still want you

Up and down like a roller coaster
Have I not gotten a hold of myself yet?
I sink into this dark, swirling swamp
Struggling, three times, four times, and it'll keep repeating
I hate you

Woo, going crazy
All that's left for me is your deep scars
And they'll never fade
I'm going crazy

Going crazy (go go going crazy)
I hate you

Woo, going crazy
Upside down, you turn my whole world on end
I can't stop now
I'm going crazy
