I can see your thick
footsteps more than my own
I can see your tears that you
shed for me more than my own

Even on days that were like a
storm that comes for no reason
Everything's just gonna be fine
(Yes it will)
For you, who always watched
over me from behind,
who always held my hand

Every time I fail, every time I fall
Give me strength so
I can become stronger
Every time I doubt, every time I lose
You made me grow this much
Feeling stronger (Stronger),
feeling stronger (Stronger)
The long darkness is going away
Like sunlight, stronger, me and you

When my heart wore out
you became the strength
that filled me up
(Oh, became the strength)

At the end of a long wandering
I difficultly earned you
Everything's just gonna be fine
Even when I was dangerous (When I was)
you embraced me (Ooh)

Every time I fail, every time I fall
Give me strength so
I can become stronger
Every time I doubt, every time I lose
You made me grow this much

Yesterday feels so far away
But unbelievably, it became today
and it'll reach tomorrow, yeah~

Every time I fail
every time I fall
The reason I can be strong is you

Every time I fail (Fail),
every time I fall (Yeah)
I will get up even stronger
Every time I doubt,
(Yeah) every time I lose
(Every time I lose)
You made me grow this much
Feeling stronger (Stronger),
feeling stronger (Stronger)
The long darkness is going away
Like sunlight, stronger, me and you
