Look straight ahead What's the situation
Beyond your embarrassed gaze
A wall that collapses
Dawn coming bright gradually Yeah uh

It's endless
I can not cut it on the end of a dull blade
The problem repeats over and over

Unfinished homework

In front of a high wall
Small, weak wind sounds
It's like a storm
Listen to it

You have to break it
So that you can see us
I have to shout loud
To spread it far
The bright lights spread
Moments when you've run out of long darkness
I have to wake up again
In the fresh morning

Look at me with arrogant eyes
Already sitting on another starting line
A distant town
Untouched cry

Growing up
A lot of dreams
It bloomed over the fence
Look at the landscape

You have to break it
So that you can see us
I have to shout loud
To spread it far
The bright lights spread
Moments when you've run out of long darkness
I have to wake up again
In the fresh morning

Distorted truth Truth taught
The voice of change
It's you that made the ocean swallow it all

You have to break it
So that you can see us
I have to shout loud
To spread it far
The bright lights spread
Moments when you've run out of long darkness
I have to wake up again
In the fresh morning
