Lonely night, you rush to me  
Early morning I can't stop you  
I am being swept away  
By the sound of the waves, oh no

My memories go back  
To when I was with you  
Not far away no  
I miss you as time goes by  
Your pretty voice  
And even your shallow breath baby

I hear you, I feel you  
I can't see you but I can hear you  
After closing my eyes  
All I have to do is find you  
Among all the noise in the world  
Your small laughter  
That's all I need to know  
That you are doing well

(Somebody) Somebody (Somebody)  
Cause someone loves you babe  
(Somebody) Oh oh oh (Somebody)

You become the rain and fall down  
(Don't you worry baby)  
Could you fall down a little harder?  
So my complicated feelings will all be washed away

Listen carefully  
Somewhere not far away  
Not far away no  
Someone is standing still  
In the same place  
Thinking only about you baby

Oh I hear you, I feel you  
I can't see you but I can hear you  
After closing my eyes  
All I have to do is find you  
Among all the noise in the world  
Your small laughter  
I think I'll be at ease

Right here, yeah

I ask myself how you are doing  
After all traces of you leave  
Among the noise that passed me by  
Even a faint breath, breathing  
Could have passed me by  
I feel that this wind somehow  
May have brushed past you  
Suddenly  
Everything still feels like a dream  
In the white fog  
I am the somebody lost

Somebody loves you  
Please know this, yeah  
Even though I can't hold on  
For a moment, just hold on tight

You may not be next to me but you're inside me  
After closing my eyes  
Just pull out and look  
At one of our countless days  
I hope that you are happy  
Wherever you are

I can't see you but I can hear you  
After closing my eyes  
All I have to do is find you  
Among all the noise in the world  
Your small laughter  
That's all I need to know  
That you are doing well
