

# As It Was, As It Soon Shall Be

Exodus

We didn't pay attention  
to lessons learned in the past  
Soon the sands in the desert  
will melt from the atomic blast  
Mesopotamia's ground zero  
for the coming of world war  
Thousands die in the sand  
And I still don't understand what for

As it was, as it soon shall be  
We're teetering on the brink  
of a world war III  
A repetition of history  
as you soon shall see  
As it was, as it soon shall be

War mongering leader of ours  
waves the flag of democracy  
Sending our men out to die  
in the name of bureaucracy  
The oil fields of Iraq  
are overflowing with blood  
Another man dies but the lies  
rain down like a flood

As it was, as it soon shall be  
We're teetering on the brink  
of a world war III  
A repetition of history  
as you soon shall see  
As it was, as it soon shall be

No weapons of mass destruction  
no threat to me  
Just one man's agenda for war,  
not a land of the free  
I never gave a shit  
about the Middle East  
But now we lie in the bed that we've  
made, start the atomic feast

As it was, as it soon shall be  
We're teetering on the brink  
of a world war III  
A repetition of history  
as you soon shall see  
As it was, as it soon shall be
