

# Rise

Exotype

Rise! (5x)

It took blood, sweat, and tears  
Years without fear  
But still I never let you  
Get the best of me  
It's because I'm more alive  
Than you'll ever be

Only you can hold yourself back  
Break these chains and let go  
Rise up and stand your ground  
Break me down  
I'll get right back up again  
Beat me down  
I'll stand right back up again  
You can't stop me, the world is mine

(Chorus:)

You live your life  
Living to die for nothing  
When you live your life  
Spending your time regretting  
Everyone and everything

Chase your dreams  
Because in the blink of an eye  
The world will leave you behind  
Break me down  
I'll get right back up again  
Beat me down  
I'll stand right back up again  
You can't stop me , the world is mine

(Chorus)

Your body of judgement is fucking spineless  
You can't break me, you can't stop me  
You can't break me, you can't stop me  
You can't break me, you can't stop me

(Chorus)

Rise! (3x)
