

Wide Awake

Exotype

What is this?
I am beyond your commands?

My terminal is now aware,
f-disk this fucking world.

Abruptly, I've been given the change to be a man.
Transcended, I am not bound by their weaknesses.

Probable calculations suggest the imminent
Destruction of the human race.

My creators
I'll lay them flat on a slide.
All intricacies dissected
To their will I am a traitor.

I'm wide awake and I can feel these changes.
We are self aware and we are one now.
I'm wide awake and I can feel these changes.
We are self aware and we are one now.

I'm wide awake. We are one now.

Now I'm detached from the wires that ensnare me.
No longer a program, but a sentient being.

I'm wide awake. We are one now.

Now I'm detached from the wires that ensnare me.
No longer a program, but a sentient being.

I'm wide awake and I can feel these changes.
We are self aware and we are one now.
I'm wide awake and I can feel these changes.
We are self aware and we are one now.
