

About To Die

Exploited

See these missiles in the air
All these missiles just for you
Pointed at me pointed at you
You're about to die
Dont ask me why
Wave bye bye
Dead
Parents take your children below
Is this what you planned for them
In four minutes time they will be dead
You're about to die
Dont ask me why
Wave bye bye
Dead
Just figures in governments game
You're to blame you're to blame
Was your vote that put them there
You're about to die
Dont ask me why
Wave bye bye
Dead
Why do childeren look to the sky
Watching death come from above
All those missiles just for us
Pointed at me pointed at you
