

## There Is No Point

Exploited

You're right you're right there is no point  
So what's the point  
We argue scream and start  
To shout so what's the point

You're right again you're right again there is no point  
What's the fucking what's the point

You moan when I go out with my mates  
What's the point  
You call me up again and again  
What's the point

You're right again you're right again there is no point  
What's the fucking what's the point

You moan you shout  
You scream again  
What's the point  
Your face is tripping you  
It's turning blue  
What's the point

You're right again you're right again there is no point  
What's the fucking what's the point  
What is the point (4x)  
What's the fucking point
