

Face to Face

Exposé

Mm hey, mm hey yeah

In my world 'round you
This I know is true
How can I tell you?
There's so much to give
How can you forget
How much I need you?

Now that we're so close together
You ask if it's forever

Face to face and heart to heart
We've come too far to let it fall apart
Face to face and eye to eye
Love is the reason that we're face to face
Face

You have to face it now, boy!

Got to overcome
This that we both knew
To find someone true
Get your mind at ease
And I know that we'll succeed
Our love will grow free

Don't ask the reasons why you can't believe
I'll never leave you

Face to face and heart to heart
We've come too far to let it fall apart
Face to face and eye to eye
Love is the reason that we're face to
It's the reason that we're face to face

(Uh-huh)

Mm hey, mm hey yeah

I'm singin' face to face and heart to heart
We've come too far to let it fall apart

Why is it so hard for you to believe
I'll never leave you?

Face to face and heart to heart
We've come too far to let it fall apart
Face to face and eye to eye
Love is the reason that we're face to

Face to face
