

# I Specialize in Love

Exposé

I specialize in love  
I'll make you feel like new  
I specialize in love  
Let me work on you

If your broken heart is bending  
You can come to me  
If you want a happy ending  
You can come to me  
If your lover fails and gone nowhere  
You can come to me, you'll see how much I care

If you think you've been mistreated  
You can come to me  
If you feel you're being cheated  
You can come to me  
If you've been hurt by love before  
Step inside, baby, and close the door

I can mend a broken heart  
I can fix it one, two, three  
I can take away the pain  
You can count on me  
I can mend a broken heart  
I can fix it just like new  
I can take away the pain, yeah  
Give you love that's true  
Give you love that's true  
Give you love that's true  
Give you love that's true
