

Liar

Ex:Re

Make me a prize if you dare
Make me promises you won't regret
Lie, lie, lie (lie)

Wind windows, white lies
You'll go far in your beat up industry
Built on nothing
But lies, lies, lies (lies)

What do you think of me?
Tell the truth, you self-absorbed lightweight
Too late, too late
You liar, you liar, you liar (liar)

What you're doing to me now, ouch
What you're doing to me now, ouch
What you're doing to me now, ouch
