

Gutted Face

Extermination Dismemberment

Will be no mercy here!

The torment in the forest
Your guts hang on the tree
You'll stay here for eternity
Irrigation!

The blood is dripping on the ground
Full loss of sanity
Enough of your pathetic tears
Time to cut your eyes

Sick!
Of your body
And of your regular features
Sick!
Better start fighting
Before I start to

Cut your hands from your shoulders
And feed you your own fingers
And drive some nails into your ears
Motherfucker!

I've done this to your mother
And your precious daughter
And I still haven't spent
My imagination

They cried like some retarded pigs
Turning into meat
The remains on the nearby tree
Are your family

Hug them!
