

# Survival

## Extermination Dismemberment

Destroyed by a deadly virus  
People decompose and feed the flies  
Blood and flesh clotted on the sun  
Mass cannibalism and loss of mind

Survivors turned into undead  
Wandering in a lifeless desert  
Somewhere far there are explosions  
Unbearable heat kills all the emotions

My hunger is now my obsession  
I have become an abomination

Survival!  
While tearing the skin from the face  
Survival!  
I want blood!
