

Bullshit Propaganda

Extreme Noise Terror

Police protect the rich
Uphold their fucking law
Police uphold the system
As they smash you to the floor
Because our so called freedom
Is nothing but a farce
Restrictions, lies and laws
Are rammed right up our arse

Don't try to cover up
The suffering that you've caused
With bullshit propaganda
It's you who cause the wars
You can't deny your crimes
Although you fucking try
Your so called free speech
Is nothing but a lie
