

Raping The Earth

Extreme Noise Terror

"Man" is superior, "Man" has the might
he's under the impression he has the right
to take the earth and do as he will
and leave nothing but a deformed hell
raping the earth and we don't seem to care
soon there will be no life left here
with such stupidity we are raping the earth
it's been on the decline since man's birth
the harmony of nature is being upturned
compassion not destruction must be learned
