

## Use Your Mind

### Extreme Noise Terror

I can't stand I can't think, I've had too much to  
drink

Forced down my pills now I can't wait  
Gonna be fucked don't wanna be straight!  
Your view is restricted, so is your mind  
You've got to break down the barriers  
And use your mind.

I drink too much but I've nothing to lose  
You stick to your fashion I'll stick to my booze  
Watching you preach has become rather bland  
What do expect to change with an 'X' on your hand?
