

# Rock a Bye Bye

Extreme

If you could only hear  
The silent screams  
When you wake them up  
From their dreams  
Nothing is heard  
Not even a  
Even a  
Even a word

Rock a bye baby  
On the tree top  
When the bough breaks  
The cradle will fall

Rock rock rock a bye baby  
Rock rock rock bye bye

And if they had  
Any chance at all  
You still can't hear  
Those voices that call  
And when the bough breaks  
The cradle will  
Cradle will  
Cradle will fall
