

# SAVE ME

Extreme

Nobody told you  
It was gonna be easy  
Nobody told you  
It was gonna be fair  
You're not the only one  
Half cocked and loaded gun  
Why pull the trigger  
'Cause the world don't care

Kiss it all goodbye  
Out of sight and mind  
Leave it all behind

You put your money  
On yourself a safe bet  
Everyone looking  
For a guarantee  
Go on and roll the dice  
Coming up snake eyes  
The game you play  
Ain't gonna set you free

Save me from myself  
Save me from this hell  
Help me heaven I'm forsaken  
Lay me down to die  
Cleanse me of these lies  
I've become what I despise  
Take me undertaker take me  
Lay me down to die

You took a bite of bark  
Of good and evil  
Sucked on the bitter pit  
Than spit it out  
The world and all its gold  
It can't buy back your soul  
Begging for mercy  
To a sacred cow

Spare me all your tears  
For someone else who cares  
Yeah take me as I am and just

Save me from myself  
Save me from this hell  
Help me heaven I'm forsaken  
Lay me down to die  
Cleanse me of these lies  
I've become what I despise  
Take me undertaker take me  
Lay me down to die

Take me as I am

And you save me from myself  
Save me from this hell

Help me heaven I'm forsaken  
Lay me down to die  
Cleanse me of these lies  
I've become what I despise  
Take me undertaker take me  
Lay me down to die
