Descent

Exumer

Deafening, burning dead inside dust it falls leave behind
Organic mental deficiency turns into madness lunacy

MOVE ON INTO HELL

Halting, crawling in this hole lose my mind lose it all
Last descent in this space layers move way to waste

MOVE ON INTO HELL

Light me up like the sky I am frying pray to die
Everlasting sins of hell it all plays out I can tell

MOVE ON INTO HELL

Passing, loathing in this hole starve my mind dissolve it all
Final prayer senses gone left with rage all alone
