

Track #2 (Freestyle)

EyedeA

It's good for me to hear too
It's good for me to look in the rear-view
It's good for me to get a clear view from the mountain top
It's good for me to get up to the bottom then I start to stop
There's no part of my heart that won't get revived by the shock
, I won't be alive if I don't stop
So I try to try to just open up my eyes cause I look at what th
e chemicals I put inside provide
And I never lied, I've probably died a thousand times every tim
e
I thought of what was in my mind it's been there trapped inside
of my nightmares and I don't have anything to spare
Light a flare I don't care I don't care that's what they all sa
y, They swear that they don't care but they come to me everyday
And say I actually do it's reality too it's not a tragedy foo'
and We're all a fool in the king's crown and when we're lookin
at The jester we try to bring the sound down now as They're Th
rowin pies at em and their throwin flys at em, my atom's got Sp
lit to a million pieces before and it released all this energy
That created this metaphor that put walls on doors and floors O
n ceilings and you're just pores and spores and your feelings,
More is more and less is less but I never protect any part of Y
our neck unless I get somethin out of it and that's a true Huma
n feeling that I have sorry if it seems selfish but I have To D
o it there's no part of me that can be a human being unless I'm
getting something from my dreams and I can't be like I'ma Be h
ere for everybody I can't hear anything I can't pretend you Lov
e me I can't hear anything anymore at my door and I know What y
ou're talkin about now I know what that... that's uhh Radiohead
song and it's great but I try to escape inside of this Little
