

## Changing Faces

Eyedress

When I find it hard to breathe  
I want you right here next to me  
You know you always calm me down  
My demons come to haunt me down

It changes  
The faces  
The places  
It's painless  
It changes  
The faces  
The places  
It's painless

They say that true love's hard to find  
We couldn't have met at a better time

Don't say sorry  
Don't say sorry  
Don't say sorry  
Don't say sorry now
