

Manila Ice

Eyedress

I been smokin' on the low
I been schemin' on the low
I been killin' on the low
I don't tell nobody no
Bribin' cops with money
In the scorching sun
Shooting anybody
That's been taking drugs
Aim it at your face
And I get away
And I'm drivin' fast
I hope this car don't crash
Got my seat belt on
Trying to make it home
Yeah

I don't even care about
What anyone think of me
And I don't really know
What these people think they know
Cause I know better
I know better

I been smokin' on the low
I been schemin' on the low
I been killin' on the low
I don't tell nobody no
Bribin' cops with money
In the scorching sun
Shooting anybody
That's been taking drugs
Aim it at your face
And I get away
And I'm drivin' fast
I hope this car don't crash
Got my seat belt on
Trying to make it home to you
Winning all the time
