

## No Traces

Eyedress

Ride for the cheese, die for the green, la for the fiend  
Island of trees, I was sitting on the five with a Z  
Y'all shuck and jive for a fee, cut a couple ties, found peace  
Cracker threw darts never reached, I was laying in a park by the beach

Found two parts of the piece, tryna put the spark to the reach  
Niggas too smart for the geese, never been too far from the feast

Threw tar at his teeth, mocked what the church awfully preached  
Seen niggas walk with the beam then get washed all over greed

Lay low till it get done, niggas just want attention  
Fuck the game till that shit come, patient, 'bout the business  
I roll dope for the remedy, you can't vote with a felony  
He flew south for recipe, the queen built like Persephone  
The calm man think, never move first, want that shit? Better do work

Walk lightly to the new earth, walk lightly to the new earth

I saw God in my own face, new sequence no trace  
Seen niggas come in the game just to realize they got no taste  
Seen niggas come in the game just to realize they got no taste  
New sequence no trace, saw God in my own face

Saw God in my own face  
Saw God in my own face  
Saw God in my own face  
Saw God in my own face
