

## Separate Ways

Eyedress

Days go by and I know I still love you  
And I cry every night for you

Hated that we went our separate ways  
Maybe we just need some time to change  
Maybe in the future I could stay  
Wait, for once I got a lot to say

Used to meet me at the bar  
Didn't drive a fancy car  
You would tell me how you are  
Never kept me in the dark  
Always knew you were a star  
Way before the fancy clothes  
You're so beautiful and smart  
On my way to where you are

Hated that we went our separate ways  
Maybe we just need some time to change  
Maybe in the future I could stay  
Wait, for once I got a lot to say

Ain't it sad we went our separate ways  
Ain't it sad we went out separate ways

Days go by and I know I still love you
