

# UNCOMFORTABLE

Eyedress

I just wanna treat you right  
But we get into these fights  
Who am I supposed to call  
When things get uncomfortable

I just wanna make things right  
I can't really do all this fighting shit  
Are we gonna be fighting all night?  
On some stupid shit

Saying shit which you don't even mean it

Am I kill somebody if you say you gon leave me  
But I would never hurt you girl  
I ain't never lay a hand on you  
Pay all the bills when the rents due  
Is that what I'm supposed to do?

I lose composure  
When you say it's over  
I cannot be sober  
When you say that its over

I'm just like you  
Still trying to figure it out  
I make mistakes too  
Just trying to make it work  
'Cause I know you're worth it

I just wanna treat you right  
But we get into these fights  
Who am I supposed to call  
When things get uncomfortable

I just wanna make things right  
I can't really do all this fighting shit  
Are we gonna be fighting all night?  
On some stupid shit
