

When The Planets Align

Eyedress

I'll be at home all day
I'll do the same next week
You won't see me out
Because I'm trying to change my life
Trying to make it right
Trying to take the dark out of mind
Get out of my mind
Said get out of my mind

Let's stay in on a Saturday night
Let's go out when the planets align
When the planets align

I need to cut this out
There's so much smoke in my mind
Think I could live without
All this doubt in my mind
Yeah get it out of my mind
Yeah

Let's stay in on a Saturday night
Let's go out when the planets align
Let's stay in on a Saturday night
Let's go out when the planets align
Yeah, when the planets align
Oh yeah, when the planets align
When the planets align
Oh oh
