

# Haunted Memories

**Eyefear**

In a distant place he speaks to me of life  
The man I used to be left behind by time  
I want to return - to the place I belong

Memories calling me  
I shall return  
A state of mind like a dream  
Try that place I can see  
You won't return  
You and I will be free

And how could this be  
A life that I once knew  
Was lost so easily  
Replaced by a different tune  
I wondered why  
Could this be happening to me?  
What will I see?

Memories calling me  
I shall return  
A state of mind like a dream  
Try that place I can see  
You won't return  
You and I will be free
