

Lost Within

Eyefear

I ask for time and nothing more
Seasons have changed - I make my move
Towards the sun taking my spirits up high
Changing my song as I go along

Take me there show me the way
My sorrow lingers on I try to carry on
Show me the end - cold is the night
Deep is the ice

Close to the edge I'm holding on
Freedom will keep us alive
In this dark world there's
So much that's been done
I'm waiting - hoping
To a dream that's been lost
I'm holding on

Take me there show me the way
My sorrow lingers on I try to carry on
Show me the end - cold is the night
Deep is the night

Cold is the night
Deep as the ice
Show me the end
