

Devastated

Eyes Set to Kill

All you do is wear me down
I don't wanna watch while
The world we built is torn apart
And crumbles to the ground
Ever since I figured out
You were just a mirror
A reflection of the worst of me
But I could see it now

Convince myself that I should stay
I'm living in the mess we made
Just throw it away, throw it away

I don't wanna feel this way
(So devastated)
I'm not gonna let you stay
I've had enough and my heart
Has figured it out
Whoa, yeah my heart
Has figured it out

All you do is waste my time
I'm not gonna give into
The promises you made for me
I'll leave 'em all behind
I just wanna watch you crawl
Feel the desperation grow
Inside of you, I'm drowning too
And now we've lost it all

I'm out of love against my will
I'm giving back this poison pill
Just throw it away, throw it away

I don't wanna feel this way
(So devastated)
I'm not gonna let you stay
I've had enough and my heart
Has figured it out
Whoa, yeah my heart
Has figured it out

Convince myself that I should stay
I'm living in the mess we made
Just throw it away, throw it away
I'm out of love against my will
I'm giving back this poison pill
Just throw it away, throw it away

I don't wanna feel this way
Anymore

I don't wanna feel this way
(So devastated)
I'm not gonna let you stay
I've had enough and my heart
Has figured it out

Whoa, yeah my heart
Has figured it out
Whoa, whoa
Yeah my heart has figured it out
