

Survive

Eyes Set to Kill

My heart's a prison that's waiting for the key
Unlock the secrets that are trapped inside of me
I'll follow you into the night
As long as we both survive

So take me
Into the other side, we'll break free
Further into the night, we'll run away
We've been given another chance to try
Another chance to survive
A chance to survive

I lost the passion that once burned through my veins
Ignite the fire and I will keep it tamed
I'll follow you into the night
As long as we both survive

So take me
Into the other side, we'll break free
Further into the night, we'll run away
We've been given another chance to try
Another chance to survive
Another chance to survive

Another chance to survive
(Whoa, whoa, whoa)

So take me
Into the other side, we'll break free
Further into the night, we'll run away
We've been given another chance to try
Another chance to survive

(Whoa, whoa, whoa)
Another chance to survive
A chance to survive
(Whoa, whoa, whoa)
Another chance to survive
