

Fallout

Eyes Wide Open

Where's our perspective?
It seems to never change
You pave the way of a dissolution

Stop the fallout from spreading with the rain
But the collateral is feeding all the same
They're feeding all the same

We walk in straight lines
And need a different view
Digging the same mine
Leads to nothing new

We're falling deeper and deeper
Into the emptiness of space
Would we laugh? Would we fail? Would we conquer?
If we finally changed our ways?

We've come so far
So deep down in this mess
We're judge, jury and executioner of ourselves
Pick up the pieces
And let yourself know
There's a chance

We're falling deeper and deeper
Into the emptiness of space
Would we laugh? Would we fail? Would we conquer?

Break the chains of yesterday
And forge a new way
GO

Forge
Forge
Forge

We're falling deeper and deeper
Into the emptiness of space
Would we laugh? Would we fail? Would we conquer?
If we changed our ways?
Why can't we understand?
Pick up the hammer
And forge a new day
Forge
Forge
Forge
Forge a new day
