

Never Meant to Be Heaven

Eyes Wide Open

We will never
We will never
We will never
We will never
Die

Dividing the sea
And burning bushes
We will never
We will never
Wage a war for the immortal
We will never
We will never die
Die for what you blindly
Choose to believe
Twisting every word to your own deceit

Your ghost
The haunting never ends
Never meant to be heaven
You created our hell

You spew fire on this cursed ground
We will never
We will never
Wait around for the world to come

Won't ever see
The golden gates
You will never have
My scattered remains

Your ghost
The haunting never ends
Never meant to be heaven
Welcome to the underworld
You lost all control
No place for the divine
Never meant to be heaven
You created our hell

We are judged by our deeds
Followed and forced to believe
Your mind can set you free
What I believe is up to me

We will never
We will never
We will never
We will never

Your ghost
The haunting never ends
Never meant to be heaven
Welcome to the underworld
You lost all control
No place for the divine

Never meant to be heaven
You created our hell
