

Come Through

Ez Mil

- The what?
- The cookout! The cookout!
- Oh! uhh
- Yeah
- I heard it was at Ez's place bro
Come on, let's go!

Yo I don't even know who's beat this is
Like it was from this little
Stomp The Yard video on YouTube
I liked it, and re-recorded everything
Re-mastered it too
Aye, check it!

I'mma live my life just how I want to
How I want to, how I, how I
We are gonna be alright so come on
And come through, come and come through
Come and come-a yeah I'm gonna
Live my life just how I want to
How I want to, how I, how I
We are gonna be alright so come on
And come through, come and come through
Come through baby

Early in the mornin' when I'm
Strollin', I spotted a lady walk
Out her door then I asked her
Hey, have you ever been in a position
Where people just keep on doubting
The goals that you strive for
She said
I guess I have but that's everyone though
So you're one that believes
That people stay in one flow
But it's not that bad
To live alike is it
But I'mma be different
So I said girl

I'mma live my life just how I want to
How I want to, how I, how I
We are gonna be alright so come on
And come through, come and come through
Come and come-a yeah I'm gonna
Live my life just how I want to
How I want to, how I, how I
We are gonna be alright so come on
And come through, come and come through
Come through baby

Ayyo D, I thought EZ was supposed to pull up on us
Watchu think he stuck on
Another girl and forgot his promise
I've been thinkin' if he would
Just be completely honest
And not leave us clueless

Man you knew this

Pssh man
I don't know bro, he's a no-show
But he better let us know though
'Fore the doors close
AMC don't give no Go, go's
For these hobos, countin'
Minutes we got four more
We jus...

Yo bro

Damn, man what took you
So long to get here

Bro, I met a pretty girl
She the best I seen this year

Man you say that bout every girl
And whisper it in their ear

Well, I don't really care cuz
I just feel like

Ooh
Ooh ooh oh, ooh
Ooh ooh baby, come through

Don't waste ya time
With anybody else
I came to make ya smile
So don't be by yourself
But if you're fakin' out
Then I won't try to help
Because

I'mma live my life just how I want to
How I want to, how I, how I
We are gonna be alright so come on
And come through, come and come through
Come and come-a yeah I'm gonna
Live my life just how I want to
How I want to, how I, how I
We are gonna be alright so come on
And come through, come and come through
Come through baby

- Yeah, I kinda have walls up whenever
It comes to other people so it's hard to
Let people in and...
- Yeah, I get you
- I'm already in a lot of... pressure? so
I don't wanna like, do any of that
