

# Will You

Ez Mil

You're not mistaken if wedding bells  
Are what these remind you of  
My love  
I don't mean to rush this  
I just got a feeling  
That we could actually take this further  
You're like no other  
Cuz we could be under the mistletoe colors  
Throughout all the winters and summers

Our love is what others could only wish for  
And solely risk for  
So tightly hold my hand  
Let's fly across the land  
But before all that  
I have to ask you some questions baby

Will you  
Pull me down and love me when I get too far in this life that we live?  
Will you  
Take the time to ask me if I'm fine in the days when I'm feelin' dead?  
Will you  
Put me back together when I'm breaking apart and say it's all in my head?  
Will you  
Be okay if I do all of that for you and be yours too?

Baby till this very moment  
I wonder what you found in me  
You get rid of all my boundaries  
To me your voice is the sound of peace  
So believe me my love when I say that  
I wanna spend my forever with you  
(Baby I'm tellin' you)

Our love is what others could only wish for  
And solely risk for  
So tightly hold my hand  
Let's fly across the land  
But before all that  
I have to ask you some questions baby  
(Please tell me)

Will you  
Pull me down and love me when I get too far in this life that we live?  
Will you  
Take the time to ask me if I'm fine in the days when I'm feelin' dead?  
Will you  
Put me back together when I'm breaking apart and say it's all in my head?  
Will you  
Be okay if I do all of that for you and be yours too? Babe

I can feel my soul, as it's beggin' for more  
Of your love, of your love  
Can't get enough, can't get enough  
I'm ready to go to war against anything that comes between us

Will you

Pull me back and hug me if I go insane cuz of wrongs I did?  
Will you  
Wipe my tears and ask me "what's wrong?" with the love that your heart can give  
Will you  
Let me know you got me when the world is no more and we're all that's left?  
Will you  
Accept that I'll do all of that for you and believe it's true?
