

# Afraid of the Dark

EZI

My, my, how did I fall in this hole again?  
I should know better than this  
Time flies funny when you're getting older  
I should know better than this

Think I fell too deep and it hurts so hard  
How you're getting me to let my guard down for you  
And you're bringing out all the reckless parts  
But I love it, oh I love it

I'm afraid of the dark  
I get lost in the thought of what I'll do with you  
I'm afraid of the dark  
Always take it too far when I'm with you, with you

Oh shit, I feel like Alice  
Woke up in a rabbithole last night, made it look like a palace  
You broke in, even though I left my door open  
Now I'm taking sips of your potion, take control of all my emotions

Think I fell too deep and it hurts so hard  
How you're getting me to let my guard down for you  
And you're bringing out all the reckless parts  
But I love it, oh I love it

I'm afraid of the dark  
I get lost in the thought of what I'll do with you  
I'm afraid of the dark  
Always take it too far when I'm with you, with you

I'm afraid, I'm afraid (I'm afraid, I'm afraid)  
Pray that it'll be okay, know that it'll be okay  
I'm afraid, I'm afraid (I'm afraid, I'm afraid)  
Know that it'll be okay, 'cause I kinda like when I'm with you

'Cause I kinda like when I'm with you  
'Cause I kinda like when I'm with
